Begin using the Unique Entity ID (SAM) from SAM.gov on April 4, 2022 Change is coming. Starting Monday, April 4, 2022, the new Unique Entity ID from SAM.gov will be the official governmentwide identifier used for federal awards.

On April 4, 2022, FPDS users will no longer use the DUNS Number to identify vendors. Instead, vendors will only be identified by the Unique Entity ID (SAM). To find an entity's Unique Entity ID (SAM), see this FAQ at our supporting Federal Service Desk, fsd.gov, The DUNS Number will no longer be accepted in FPDS input.

The Unique Entity ID (SAM) is already visible and available for data entry in FPDS. Remember, prior to April 4, 2022, the authoritative unique entity identifier is the DUNS Number. On and after April 4, 2022, the authoritative unique entity identifier will be the Unique Entity ID (SAM).

For Interfacing Systems ONLY:

- Because the Unique Entity ID (SAM) data element is not present in pre-V1.5 FPDS Schema/WSDLs, the Unique Entity ID (SAM) cannot be corrected using the older version WSDL/Schema in which the contract action was initially created.
- If an interfacing system corrects an older version using the V1.5 Schema/WSDL, then it can update the Unique Entity ID (SAM) on older versions.
- If an interfacing system uses the pre-V1.5 Schema/WSDL to correct the CAR, you must use the web portal to correct the Unique Entity ID (SAM) via the user interface. In this case, you can use the entity lookup next to the "Entity Name" field to search for and select the correct entity.

The SCMC seeks competitive and qualified suppliers

Supply Chain Management Center

The Supply Chain Management Center (SCMC) is a service organization that works closely with Department of Energy (DOE) contractors to leverage \$5.4B of annual spend, to yield lower prices and optimize business systems, providing cost savings and value to our customer, the DOE. Our success is attributed to our close working relationships with the contractor locations, as well our focus on achieving the mission & vision, while measuring performance to established goals. See our <u>highlights</u> page.

Our Vision

To enhance National Security Enterprise and Environmental Management Contractor acquisition processes creating an effective, efficient, and strategically driven enterprise-wide Sourcing and Procurement function.

Our Mission

The long-term objective of the SCMC is to collaborate with the Contractor community to implement, maintain, and continuously improve an enterprise system to achieve integration, leveraged spend, and overall reduced

What the SCMC is:

- An Enterprise-wide sourcing system leveraging EM and National Nuclear Security Administration spend
- A structured, dedicated, funded approach to acquisition cost savings
- Commodity teams responsible for data collection, commodity strategy, reporting and delivering savings
- A commercial best practice which includes acquisition tools and data analytics

What the SCMC will not do:

- Contract for other Federal agencies/departments
- Chift procurement hudgets or huving from
